

Hanna Combo Water Wizard Arch

Hanna Test Center

# Hanna Combo Water Wizard Arch

## Hanna Combo Water Wizard Arch

The Hanna Combo Water Wizard Arch provides high pressure wheel washing as well as total vehicle coverage. The Combo unit utilizes Hanna's exclusive spray head with multiple zero degree nozzles to deliver a concentrated blast of water. The Wheel Washer creates maximum impingement and maximizes dwell time through the use of a rotating manifold that pivots to follow the front and rear tires. The top manifold oscillates left and right and the side manifold up and down scrubbing the complete vehicle surface. The combo unit is the ideal choice when conveyor space is limited.

## Specifications

### Hydraulic Flow:

3.0 GPM @ 200 PSI (11.4 LPM @ 14 BAR)

### Electrical:

60 Watts @ 24 VAC

### Air:

less than 1 SCFM @ 90 PSI

### Water:

35 GPM @ 1000 PSI (133 LPM @ 69 BAR)

### Optional Electric Drive:

5 - 1/8 HP Motors Included

208/230/380/415 Volt 3-Phase

.94/.90/.54/.50 Amp Per Motor

## Design Features

### Construction

- Stainless Steel Frame
- Optional Stainless Steel "Skins" w/ Graphics
- Hydraulic Drive or Electric Drive

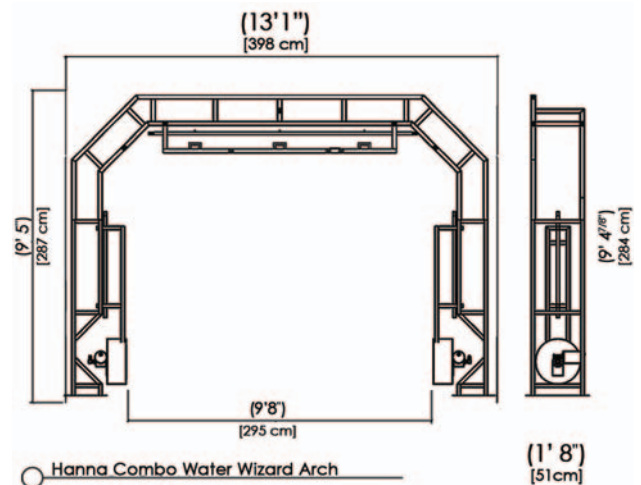

### Standard Dimensions

- Operating Space: 8' (243 cm)
- Width: 157" (398 cm)
- Length: 20" (51 cm)
- Height: 113" (287 cm)
- Height Clearance: 96" (243 cm)

### Design Features

- Hydraulic or electric driven oscillating motion
- Air operated pivots
- Five oscillating spray heads
- Four wheel washing spray heads
- Custom graphics available

## Component Assembly

Hanna Car Wash Systems • 5842 W. 34th Street Houston, Texas 77092 • 800.288.6927
